### LITERACY TIP:

When we have children paint, draw, or even scribble, it is helping children develop the skills for later writing. Encourage them to tell you a story about their list of favorite things. You can enrich the experience by expanding on what they say, descriptive words, words for feelings, encouraging their imagination, giving information about a topic. Your conversation can build their vocabulary and background knowledge, what they know about the world, which will make it easier for them later to understand what they read.

### TRY AT HOME:

Work together  
to write a list of  
your child's  
favorite words  
& things.
